

Lose UP TO 1 POUND/Day

I don't know about you, but there are a lot of New Year resolutions made - that are broken by

February 1st of every year. Why? Because people for the most part, don't know how to take the extra weight off **safely**.

They try and starve themselves, which never works, they try some new way that is bogus and for sure that never works, or they join a gym, and find out there is some sweat equity involved, it takes time to lose weight this way, and then they quit that within a week or so.

That kind of weight loss never works.

That's why you have this report. I want to help you lose weight the healthy way, without drugs or surgery and we get FAST RESULTS... faster than anything you've ever heard about, and at a fraction of the cost of other programs.

This Is A WIN-WIN Program

This fast and safe LOSE UP TO 1 POUND a day program is available for the first time in North America and is used in Europe, as well as in Australia.

It's so new, you'll probably be just one of the few people that know about it because it's a very exclusive weight loss program that he has shared with just a few doctors all over the world.

New Weight Loss Program No One Has Access To

Like I said, this is a brand new technology, so you're in for a real treat.

The beauty about this program is that it is customized for your specific needs. If you want to lose 10 pounds or 100 pounds, we have the right program for you.

And the good part is: Exercise is purely optional.

It's great if you exercise to build more muscle, but you don't have to. No kidding. We have people right now that have lost over 50 pounds without ever doing one push up or going to a gym.

When you come to the office for our weight loss program, we'll show you a video, and then you decide whether this program is right for you or not.

Now let's talk about the current programs out there, such as the different diets, such as the cabbage soup, Atkins, South Beach, Nutri System, Weight Watchers, etc.

There's a reason why they exist, but you are probably one of the 20%'s that didn't fit into that mold.

This Program Is For You IF You Want To LOSE Weight

Your Weight Loss program will be customized just for you. It's composed of several things, each in of itself, and designed to help you lose fat quickly, but combined together it makes this program foolproof.

Don't forget. This program is customized to your needs.

"This is the best thing I have done for myself in years. I was so overweight that I did not have the energy to do anything. After just two weeks, I had energy like I was 20 years old again. After 60 days, I was almost down 60 lbs, my knees feel better, and I can walk as far as I want to without being out of breath. After not wanting to play any sports ever again, I am rollerblading again and looking forward to playing hockey again. I just plain feel better. I sleep better at night and I am not tired in the middle of the day. I recommend this program to anyone who is

overweight. I have tried all of the pills and gadgets out there and they never worked. This works and if I can do it, everyone can do it.”* - Chad N.* - Chippewa Falls, WI

“If you want to lose a lot of weight in a short period of time, then give Wausau weight loss a call. I never thought I would see the old me again. But on the program I lost 70 lbs. Amazing! The staff at Wausau weight loss was all very friendly and encouraging. I would recommend Wausau Weight Loss to everyone who wants to feel good about themselves again. Thank you all very much!”* – Jim M.*, Weston WI

In our program we also have a proprietary blend of drops that will help melt the fat away. You won't find this anywhere else and they work like magic.

And it doesn't matter if all you eat are fruits and vegetables, and you're a vegan, you still end up with lots of toxins in your system. You have toxins in the water, the air you breathe and the lotion you put on your skin. They are everywhere.

The average American consumes about 80,000 different toxins per year and it's unavoidable.

You can minimize this, and we'll help you do this with our specialized weight loss program. All you have to do is show up, start the program and we'll start helping you to “burn off your fat” quickly.

You see the body uses fat cells to protect you from the toxins in your body. That's why when we get rid of the toxins that have built up in our system, the body lets go of the fat, because we don't need it anymore.

You can lose up to 1 pound a day so this is a very powerful program when you add in all the other specialized components.

“My name is Roxy. I'm diabetic and my numbers were getting higher and higher; and I really was afraid my doctor was going to make me go on insulin. I knew I had to do something. I didn't want a diet where I had to eat special foods. I went in shortly after I was done with Dr. Sharer's program and all my numbers were where they should be. It was fantastic. I lost 38 pounds, and 15 inches. I started this last April and I have not gained the weight back. I'm feeling great and I hope to cute some more weight.”* - Roxy C.* - Wausau WI

We also give you something that includes all the amino acids, trace minerals, vitamins, and minerals... that you need... to balance your body's eco system so it will drop the weight quickly.

Also while you are on this program you will follow a food management plan of minimal carbs, non-starchy vegetables and lots of good protein.

This reason for this is, it's a comprehensive program.

You can lose up to 1 pound a day and not have to **STARVE YOURSELF**.

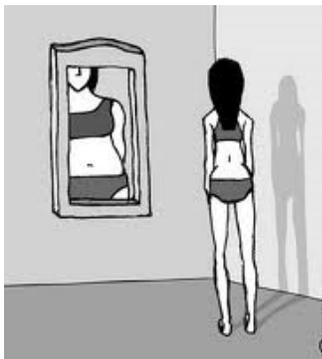

You're going to feel better than you've felt in a long time, clothes are going to start fitting better, people are going to start asking you what you're doing, and your entire self-esteem issues will more or less disappear. You're going to love what you look like when you get in front of the mirror at home.

Now let me make something very clear.

Everyone loses at different rates. For example men lose weight faster than women, younger people lose weight faster than older people, and heavier people seem to lose weight easier than lighter people. But the common factor is that they all lose weight.

If you're tired of the same old excuses, and you're tired of spending money on programs that don't work, and you can't keep the weight off, you definitely want to investigate this weight loss program because there is not another one like it anywhere. Don't forget we want to give you the

Results You've Been Searching for.

Good luck

And there may be additional things that the doctor recommends in your particular situation after they review your paperwork.

We are glad you are reading this report, as once you get started, this will be an exciting journey back to your ideal weight.

Isn't it exciting to finally be able to lose those EXTRA pounds and do it quickly, easily, and then keep them off without starving yourself?
